BY SYLVANSPORT

GO+ RAPID RESPONSE

BY SYLVANSPORT

FROM TRAILER MODE ➤ TO TRANSPORT MODE ➤ TO SHELTER MODE... IN MINUTES!

ALL-IN-ONE

The go anywhere, carry everything, GO. Rapid Response Trailer.

GO. Rapid Response is the incredibly versatile, go anywhere, carry anything tactical trailer / transport / shelter from SylvanSport. At 1,200 lbs. any vehicle in your fleet can tow the GO. Rapid Response - anywhere. Skid units, communications and logistics equipment, ATVs, emergency supply transport, set up as a remote command center, a rest area, disaster triage center, with the expansive live/workspace, GO. Rapid Response does it all, in one!

GSA Contract #GS-35F-698GA (Schedule 70)
Partnered with Tomahawk Information Solutions
Certified: SBA WOSB | NMSDC MBE | WBENC

CAGE: 08U41
UEI: VY1JC1U4SUD1

The affordable fleet vehicle solution.

At a fraction of the price of new, motorized vehicles, GO. Rapid Response trailer adds tremendous capabilities to your department. Tow it behind any vehicle in your fleet. GO. Rapid Response can convert from a trailer, to a transporter to a mobile command center... in minutes.

All-in-one!

ATVs/UTVs

Remote vehicle transporter.

With a large deck capable of over 2,000 lbs. GO. Rapid Response Trailer can carry ATV units for remote rescue operations. Unload the ATV and hitch it to the GO. Rapid Response, for even more remote situations, search and rescue, forest fire, vineyards and farms, overnight/multiple day deployments.

With a capable UTV, GO. Rapid Response can carry anything from emergency supplies to motorcycles and ATVs. Reach remote locations unthinkable by traditional, large rescue vehicles. Arrive at your destination, set up a triage tent for medical, rest and shelter for first responder personnel, whether for a day or a week or longer.

EV Rapid Suppression.

EV and hybrid cars and trucks are a growing market. Electric vehicle fires are inherently dangerous and can quickly become a disaster.

GO. Rapid Response Trailer is the perfect vehicle for quick attack response to emergency EV fire situations. Quick deployment of fire blankets, breathing apparatus, protective clothing, cutting tools, rescue equipment and more can contain fires and prevent situations from becoming worse.

EV RAPID SUPPRESSION

Remote transporter.

Load up the deck of the GO. Rapid Response Trailer with over 1,000 lbs. of food, water, medical supplies in disaster situations in remote, hard to reach locations and any conditions.

Slide-out cargo drawers.

GO. Rapid Response can transport large equipment and supplies. Adding a slide-out cargo drawer can make loading/unloading and access easier and safer. Heavy duty, lockable sliding drawers are reliable in extremely rugged environments.

Food, water, supplies distribution.

Reach remote locations, raise the GO. Rapid Response trailer and utilize the two tables (500 lb. capacity each) for distribution and staging. Raise the upper rack to full height to provide work/scene lighting all night.

Mobile Command

Mobile incident command center.

The GO. Rapid Response Trailer quickly deploys into a spacious command center for tactical missions and emergency response. 10.5'w x 7'd x 6.5'h sheltered space, with tables and multiple, comfortable seating/beds and a large covered area for maximum flexibility.

UAV/Drone Command

Rapid drone deployment

The use of drones lets you cover far more ground than on-foot teams, and at far less cost than traditional aircraft. GO. Rapid Response trailers, when used as a UAV base, help enable rescue teams to search at low altitudes in remote, complex environments. Sweep vast search areas, day or night, and find subjects faster with thermal imaging, high quality video and images to spot life-saving details, safely.

OPTIONAL EQUIPMENT

Whether fighting wildfires, performing rescue operations, transporting emergency relief supplies, equipment, ATVs - **GO. Rapid Response** can be outfitted for any situation. Every situation is unique, from various firefighting skid units (HP, LP, foam, water, etc.) to custom extendable equipment beds with storage, tables, cases, equipment, etc. **GO. Rapid Response** can accommodate it all. Whether we supply a turnkey solution, we facilitate an upfitter or you add yourself, **GO. Rapid Response** is infinitely modifiable.

EXTENDABLE EQUIPMENT BED

Extendable equipment beds for fire/rescue are durable and reliable in extremely rugged environments. Each unit can be fully customized to best suit your specific requirements. Extendable equipment beds are designed to organize tools and gear, secure storage, transport equipment, facilitate loading/unloading, and eliminate the need to crawl around the deck of your **GO. Rapid Response**. The durable slide-outs increase efficiency and improve safety.

VEHICLE LOAD/UNLOAD RAMP

With a large deck capable of over 2,000 lbs. **GO. Rapid Response** can carry ATVs (even two motorcycles) for remote off-road operations. Unload the ATV, hook it up and tow the **GO. Rapid Response**, for even more remote situations - search and rescue, forest fire, overnight/multiple day deployments. Ramps can be stored on the deck for easy deployment and stowage.

FIREFIGHTING SKID UNITS

Add a custom fire pump skid unit and turn your **GO. Rapid Response** into an agile fire-fighting powerhouse. Compact and robust skid units seamlessly convert your **GO. Rapid Response** into a high-impact fire rescue workhorse. Available as a turnkey solution, or customizable to fit your specific fire/rescue requirements.

GO. RAPID RESPONSE

Reasons for the GO. Rapid Response.

- Use existing light vehicles, no purchase of new vehicles necessary, no annual gas or maintenance costs.
- Carry fire fighting skid units, up to 4'x7'x4' and 2,000 lbs. Turnkey or custom configured to your needs.
- Carry emergency equipment, medicine and relief supplies to remote locations.
- Multi-role deployment: Respond to grass fire, forest fire, confined rough terrain rescue, salvage.
- Carry ATVs. Go even further by hitching the GO. Rapid Response to the same ATV.
- Quick attack response to remote, off-road locations.
- Sliding cargo tray available, for ease of loading and unloading heavy objects and convenient distribution.
- Makes ideal EV Rapid Suppression system (EVRS). Large, bulky fire blankets don't need to take space on fire trucks.
- Quickly deploy mobile incident command station for protection from the elements and extended overnight missions.
- Carry fire fighting and rescue tools, extra fuel, generators on external MOLLE panel system
- Quick, simple deployment - convert from travel to transporter and mobile command center in minutes.
- State-of-the-art lighting from FireTech / HiViz LED Lighting
- Transport and deploy multiple, portable light towers.
- Carry patients out of remote locations on deck, with gurney or stokes basket, flat and attended to by emergency personnel
- 24/7 shelter with comfortable sleep accommodations for up to 3 for overnight missions.
- Festival triage, rest, staging and planning shelter.
- Beach rescue vehicle - towable by ATVs.
- Small footprint. Store anywhere and solve space constraint limitations.
- 20-year track record of making durable, off-road trailers in Brevard, NC USA.
- So much more...
