

GO. RAPID RESPONSE

GO. RAPID RESPONSE

HUNDREDS OF MISSION-CRITICAL OPERATIONS
ONE VERY UNIQUE SOLUTION.

GO. RAPID RESPONSE

The go anywhere, carry everything, GO. Rapid Response.

GO. Rapid Response is the incredibly versatile, go anywhere, carry anything tactical trailer / transport / shelter from SylvanSport. At 1,200 lbs. (2,150 fully loaded), any vehicle in your fleet can tow the GO. Rapid Response - anywhere. Set up as a remote command center, a rest area, disaster triage center - with the expansive live/workspace, GO. Rapid Response is ready.

FROM RAPID TRAILER MODE

TO RAPID TRANSPORT MODE

TO RAPID SHELTER MODE... IN MINUTES!

ALL-IN-ONE

GO. Rapid Response - Base model.

The SylvanSport GO. Rapid Response comes complete with off-road suspension, wheel and tire package, spare tire, rugged aluminum off-road frame, stabilizer jacks, lockable and waterproof storage, diamond-plate aluminum cargo deck with solid side panels, tongue jack, 7-pin connector and junction box, structural rack, electric brake package, waterproof shelter/tent, interior panels and mattresses and more. Infinitely expandable and customizable, the Base GO. Rapid Response is a blank canvas to customize a tactical trailer for your specific needs.

The affordable fleet vehicle solution.

At a fraction of the price of new, motorized vehicles, GO. Rapid Response trailer adds tremendous capabilities to your department. Towed behind any vehicle in your fleet, GO. Rapid Response can convert from a trailer, to a transporter to a mobile command center... in minutes. All-in-one!

GO. RAPID RESPONSE

CUSTOMIZE

COLORS AND GRAPHICS

Customize GO. Rapid Response to your specific colors, names and "look", with powder coat color options, rotomolded part color options and custom graphics.

COUPLERS

GO. Rapid Response comes with a standard 2" coupler to handle most basic road conditions. Upgrade to an articulated hitch - the safest, easiest to use, most versatile on road/off road hitch on the market. Utilizing 3 axis' of movement including 360 degrees of rotation and a unique locking mechanism, articulating hitches are smoother operating and the safest type of hitch.

ELECTRIC BRAKE SYSTEM

Standard GO. Rapid Response comes with a 7-pin connector and junction box, allowing for all standard running lights, accessory lighting, electric brakes and accessories. An electric brake package can be added for situations that require it.

UPPER STORAGE RACK AND LIGHTING

GO. Rapid Response upper storage rack provides a rugged, level mounting surface with multiple tie-down points for carrying extra equipment, mounting front, side and rear lighting. Accessory lighting systems can be mounted to the upper rack including LED light bars, mini LED lightbars, work/scene lighting and off-road lights. We feature FireTech, by HiViz LED Lighting.

MOLLE PANELS AND ACCESSORIES

GO. Rapid Response sides are designed to receive SylvanSport MOLLE (Modular Lightweight Load-Carrying Equipment) panels for side coverage on both sides. A standardized system of attachment allows users to securely fasten tools, equipment and other gear onto the GO. Rapid Response.

EXTENDABLE EQUIPMENT BED

Extendable equipment beds for specialized applications are durable and reliable in rugged environments. Each unit can be fully customized to best suit your specific requirements. Extendable equipment beds are designed to organize tools and gear, secure storage, transport equipment, facilitate loading/unloading, and eliminate the need to crawl around the deck of your GO. Rapid Response. The durable slide-outs increase efficiency and improve safety.

SLIDE-OUT CARGO DRAWERS

With a carrying capacity of over 900 lbs. on the deck, GO. Rapid Response can transport large equipment and supplies. Adding a slide-out cargo drawer can make loading/unloading and access easier and safer. Heavy duty, lockable sliding drawers are reliable in a variety of environments.

VEHICLE LOAD/UNLOAD RAMP

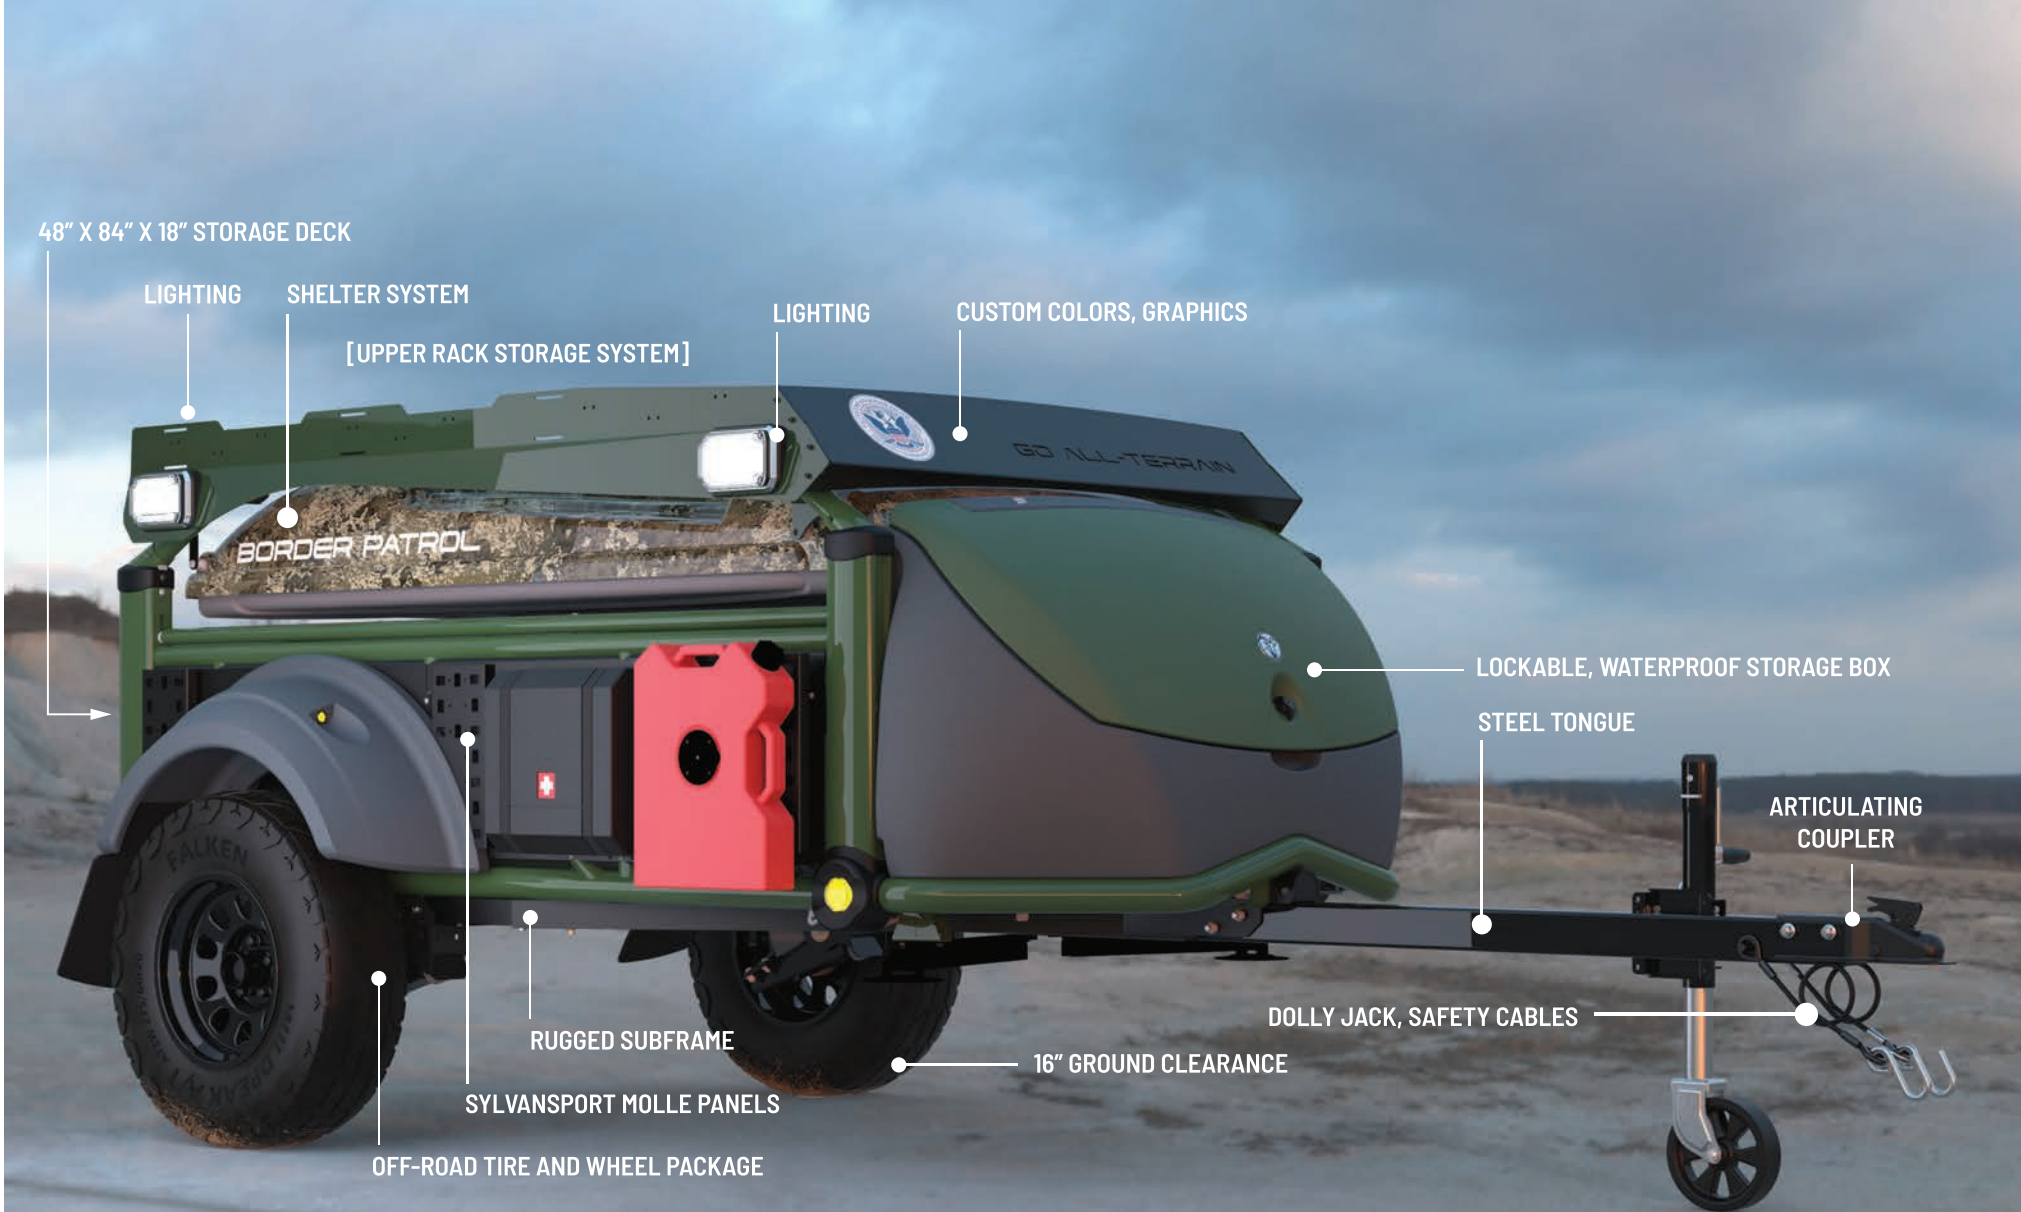

With a large deck capable of over 900 lbs. GO. Rapid Response can carry ATVs (even two motorcycles) for remote off-road operations. Unload the ATV, hook it up and tow the GO. Rapid Response, for even more remote situations – search and rescue, forest fire, overnight/multiple day deployments. Ramps can be stored on the deck for easy deployment and stowage.

FIREFIGHTING SKID UNITS

Add a custom fire pump skid unit and turn your GO. Rapid Response into a compact and agile fire-fighting trailer. Robust skid units seamlessly convert your GO. Rapid Response into a high-impact fire rescue workhorse. Customizable to fit your specific fire/rescue requirements.

OFF-ROAD TIRE AND WHEEL PACKAGE

Compact, lightweight, capable.

The SylvanSport GO. Rapid Response Trailer can travel in compact trailer mode, while still allowing for 4'x7'x18" of storage on the deck. With 18" ground clearance and a capable off-road suspension, tire and wheel package, GO. Rapid Response is a year-round work vehicle, ready for any situation and condition. With its minimal footprint, GO. Rapid Response takes up very little space, can be moved by hand and can even be stored outside.

Remote transporter.

Load up the deck of the GO. Rapid Response Trailer with over 900 lbs. of food, water, medical supplies in disaster situations in remote, hard to reach locations and any conditions.

Slide-out cargo drawers.

GO. Rapid Response can transport large equipment and supplies. Adding a slide-out cargo drawer can make loading/unloading and access easier and safer. Heavy duty, lockable sliding drawers are reliable in a variety of environments.

Food, water, supplies distribution.

Reach remote locations, raise the GO. Rapid Response trailer and utilize the two tables (500 lb. capacity each) for distribution and staging. Raise the upper rack to full height to provide work/scene lighting all night.

Specialized fire fighting skid units.

With a carrying capacity of over 900 lbs. on the deck, GO. Rapid Response can transport a variety of skid units, for almost any situation.

Custom extendable equipment beds.

Outfit your GO. Rapid Response Trailer deck with slide-out equipment racks. Custom drawers, white boards, tables, slide-out equipment trays and mounting boards, containment caging, storage dividers for tools, generators, extra fuel - just some of the possibilities. Build out GO. Rapid Response to address YOUR specific requirements.

[FIRE FIGHTING/RESCUE SLIDE-OUT]

Off-grid power and stealth.

With 400 watts of solar power charging on the upper racks, GO. Rapid Response is capable of carrying two electric motorcycles. This unique combination facilitates multi-day missions with built-in power, carrying capacity and planning/sleeping quarters - All in one!

GO. RAPID RESPONSE

TRANSPORT

Remote vehicle transporter.

With a large deck capable of over 900 lbs. GO. Rapid Response Trailer can carry ATV units for remote rescue operations. Unload the ATV and hook it up to the GO. Rapid Response, for even more remote situations - search and rescue, patrol, overnight/multiple day deployments.

[TRANSPORT ATV]

[LOAD/UNLOAD ATV]

[TOW WITH ATV]

Rapid drone deployment

The use of drones for military surveillance is widespread among various groups, including army, law enforcement agencies such as border police, and customs. GO. Rapid Response trailers, when used as a UAV base, help enable agents to quickly identify potential threats, detect illegal activity, and respond to security breaches.

Mobile incident command center.

The GO. Rapid Response trailer quickly deploys into a spacious command center for tactical missions and emergency response. 10.5'w x 7'd x 6.5'h sheltered space, with tables and multiple, comfortable seating/beds and a large covered area for maximum flexibility. GO. Rapid Response can take you where no other tactical trailer can.

[MULTI-CONFIGURABLE INTERIOR]

[MOBILE INCIDENT COMMAND]

CONFIGURATION 1: TWO BEDS, OPEN FLOOR

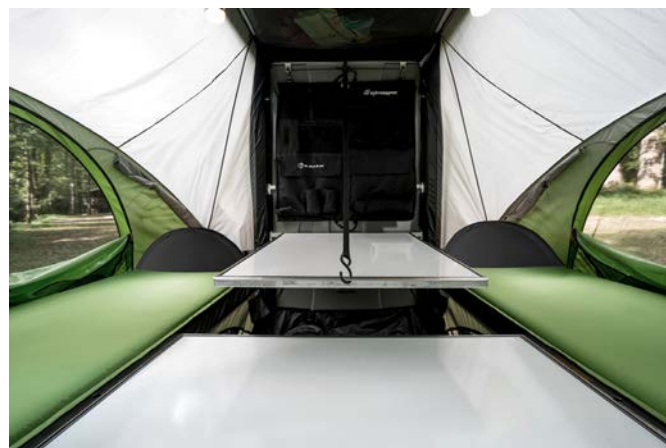

CONFIGURATION 2: TWO BEDS, NIGHT TABLE BETWEEN BEDS

CONFIGURATION 3: TWO BEDS, TABLE FOR MEALS, MEETING, PLANNING

CONFIGURATION 4: TWO BEDS, TABLE, SHELF UNDER TABLE

CONFIGURATION 5: TWO BEDS, TABLE, BENCH SEATING

CONFIGURATION 6: ONE KING-AND-A-HALF-SIZED BED

GO. RAPID RESPONSE

HUNDREDS OF MISSION-CRITICAL OPERATIONS ONE VERY UNIQUE SOLUTION.

GO. RAPID RESPONSE

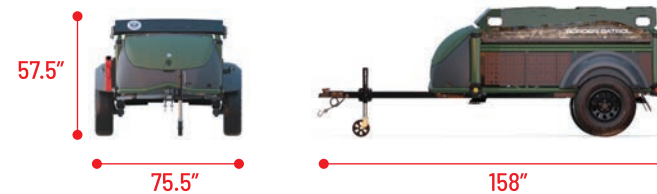

Reasons for the GO. Rapid Response.

- Use existing light vehicles, no purchase of new vehicles, no annual gas or maintenance costs.
- Carry various skid units, up to 4'x7'x4' and 900 lbs. Custom configured to your needs.
- Carry emergency equipment and supplies to remote locations.
- Multi-role deployment: Fire, patrol, multi-day, drone surveillance, rough terrain rescue, salvage.
- Carry ATVs. Tow GO. Rapid Response further by hitching to the same ATV.
- Quick attack response to remote, off-road locations.
- Sliding cargo deck available, for ease of loading and unloading heavy objects.
- Transport munitions, medical, emergency supplies
- Quickly deploy mobile incident command station for overnight missions.
- Carry fire fighting and rescue tools, extra fuel, generators on deck and MOLLE panel system.
- State-of-the-art lighting from FireTech / HiViz LED Lighting
- Transport and deploy multiple, portable light towers for on-scene work lighting.
- Carry patients out of remote locations on deck, flat and attended to by emergency personnel
- 24/7 shelter with comfortable sleep accommodations for up to 3 for overnight missions.
- Event triage, rest, staging and planning shelter.
- Small footprint. Store anywhere and solve space constraint limitations.
- 20-year track record of making durable, off-road trailers.
- So much more...
